# Revolutionise Your Earnings: Vision's Innovative, Transparent Commission Structures

Brokers Supporting Brokers

VISION

In the bustling world of mortgage broking, success isn't just about finding the right loan for your clients; it's also about securing the right commission model for your business. At Vision Aggregation, we take an unconventional approach to commission structures, offering you transparency and flexibility. We don't just provide you with choices, but an innovative framework that's designed to amplify your earnings and grant you the financial freedom you desire.

## 1 Freedom to Earn Your Way

Traditional commission structures can often feel like a one-size-fits-all approach, leaving you little room to tailor your earnings to your unique business strategy. At Vision, we believe in granting you the freedom to earn your way. Our commission models offer a wide array of options that cater to a diverse range of needs. Whether you're looking for upfront income, the predictability of a flat fee, or an innovative mentor program, we have the ideal path to success waiting for you.

## 2 Percentage Model – Up to 95% Upfront and Trail

At the heart of our commission framework is a percentage model that grants you the opportunity to earn up to 95% upfront and trail commissions. This model empowers you to harness your expertise and maximise your income potential. It's your chance to be rewarded for your skills and hard work.

## 3 Flat Fee Models – Pioneering Predictability

Do you prefer financial stability and predictability in your earnings? Vision Aggregation pioneers two distinct flat fee models, each offering 100% upfront and trail commissions. The individual model is available at just $595 per month + GST, while the group model, designed for up to three brokers, is accessible for $895 per month + GST. Even better, should your group expand, the cost per broker decreases, maintaining a cost-effective structure for growing teams. Rest assured; our flat fee program is the most value-for-money choice in the industry!

# 4 New Entrants and Mentor Program

Starting your journey as a mortgage broker? We have a revolutionary mentor program designed with your career in mind. Offering an 85/15% commission split, this program provides you with invaluable insights and mentorship, ensuring you kickstart your career on the right foot. This program is available for $200 per month, offering an exceptional opportunity to learn from the best. Plus, our Mentor Program stands as the most cost-effective option in the industry, making it an unbeatable choice for newcomers.

# 5 Flexibility and Control

At Vision Aggregation, we understand that your business needs can evolve. That's why we offer the unique advantage of transitioning between commission models at no additional cost. It's a level of flexibility and control that's almost unheard of in the industry. Your business should adapt to your strategy, not the other way around.

# 6 Seamless Integration

Our commission models seamlessly integrate with our advanced technology, ensuring you have the tools and support you need to thrive in the industry. You'll enjoy top commission rates paid by all lenders on our extensive panel, as well as 100% pass-through on all leasing business. Our monthly commission statements are designed to be transparent and easy to understand, and our approachable commissions team is based right here in Australia, ready to assist you when you need it. Your commissions are paid monthly, on time every time, so that you can manage your business with confidence and ease.

# Unconventional, Uncompromising Success

Vision Aggregation's commission models are more than just numbers; they're pathways to success that allow you to shape your career and financial future on your terms. Don't settle for traditional structures that limit your potential. It's time to embrace an innovative, transparent and flexible approach to commissions and lead the way in the mortgage brokering industry. Contact us today to explore how our unique commission models can transform your mortgage broking career.
